OCTOBER MINING DEVELOPMENT ISSUE

Nevada City Nugget

COVERS RICHEST GOLD AREA IN CALIFORNIA

Vol. 12, No. 82. The County Seat Paper NEVADA CITY, CALIFORNIA The Gold Center FRIDAY, OCTOBER 21, 1938.

From the Californian, March 15, 1848:
The Liberty of the Press consists in the right to publish the Truth, with good motives and for justifiable ends. — Alexander Hamilton

Thinking Out Loud

By H. M. L.

It is time to think of candidates and measures on the ballot. All citizens who love their country should devote thought to the qualifications of men, and women too, who seek public office, and should study carefully the proposals which will appear on the ballot for their approval. The election will be held two weeks from next Tuesday.

First as to the governorship. Governor Frank F. Merriam is a candidate for re-election. We believe Nevada county owes him a vote of thanks and of confidence. Throughout his term of office he has opposed the excesses of communistic labor organizations. When the people of this county tired of the abuse, and threats of John L. Lewis' followers, especially one threat which came within an ace of closing the largest mine in the near vicinity of Nevada City, and spectacularly removed a picket line, Governor Merriam appointed a commission to investigate the community uprising. This commission was one of the most disinterested that could be chosen .Its report did not exonerate the participants in the rumpus, but it did show that this community had been patient and long suffering in the face of insult, menace, abuse and the attempts of a small, very small, minority, to put several hundred men out of employment here. Nevada County should poll a large majority for Governor Merriam in recognition of his sane, humane and just consideration of this incident.

Culbert Olson, the Democratic nominee for governor, was one of Upton Sinclair's ardent supporters four years ago. Olson now is supported from one end of the state to the other by the CIO cohorts, the same organization that has made so much trouble in Nevada county. He proposes to pardon Tom Mooney, the man who murdered ten persons and wounded many others during a preparedness parade in San Francisco in 1916. This red-handed murderer was condemned to die. His sentence was commuted, however, and he has lived to be the well beloved martyr of all communists, rich pinkos, and radical labor elements. To this multi-murderer Olson promises to give full pardon, even though no tribunal, not even the United States Supreme Court, has found any evidence to refute the justice of Mooney's conviction. Mr. Olson has too frequently demonstrated his opportunism to inspire confidence among thinking and loyal citizens. We may well suspect that Mooney is only a bridge upon which he hopes to cross over to the governorship.

For Lieutenant Governor, it can be predicted safely that Nevada County will vote a big majority for Dr. Walter Scott Franklin, noted physician and latterly a farmer. He is one of those forthright, upstanding liberals that wins support in all walks of life. His opposition, Ellis Patterson was among the demagogues who came to Nevada County and helped to inspire the CIO affiliate here to penetrate and undermine our own Mine Workers Protective League with a view to taking over its $50,000 treasury. Despite Patterson's blatant appeal, the CIO was definitely routed and the Mine Workers Protective League is today one of the strongest independent unions in California. There is a sharp and unusual contrast between Patterson, the cheap CIO rabble rouser, and Dr. Franklin, who has devoted many years of his life to physical well-being of his fellow men, and now hopes to accomplish good things for their social well-being.

And for United States Senator, Philip Bancroft, a man who for many years has been a leader in California farmer organizations. He, too, is a liberal even as defined by President Roosevelt. Moreover his name shone bright among the state's earliest progressives. He helped to elect Hiram Johnson to the governorship and later to a seat in the United States Senate. He helped Governor Johnson "kick the Southern Pacific" out of California politics. He is still a progressive, still a broad liberal. When "Ham-and-Eggs" Downey, the CIO choice for senator, calls Mr. Bancroft a "reactionary," it is to laugh. "Ham-and-Eggs" Downey is one of those political chameleons who takes the color of any political tint that seems for the moment popu-

Two Hundred Men to Work on N.I.D. Dam

Will Mitchell, in charge of WPA workmen, stated yesterday that 30 men had been sent into the Scotts Flat section to prepare a camp for workmen who will be employed on the projected dam voted for by the Nevada Irrigation District at an election a short time ago. A crew is preparing a road that will start at the Five Mile House out on the Tahoe Ukiah highway and lead down to the new camp which will house about 200 men when completed. Wood floors are being built and canvas tent tops will be placed over them temporarily to house the men. It is expected the new camp will be completed in about 30 days and by that time the N. I. D. may be ready with necessary funds to place 150 more men in camp. Work on the dam probably will be in full swing by spring.

The new dam will be about a mile above the present one and 125 feet high. It will cover 400 acres of ground with stored water. The old dam will continue in use but it was stated while it is 120 feet high it is in a narrow section and only holds back about ten feet of irrigation water.

Mr. Mitchell stated his men are employed to build the road, clear the camp and dam sites. The dam will be built by contractors.

A.F.L. LEADERS BACK MERRIAM FOR GOVERNOR

SAN FRANCISCO, Oct. 20.—The enemies of the American Federation of Labor are behind the candidacy of Culbert L. Olson for governor of California, Olson has been given the support of John L.Lewis, dictator of the Committee for Industrial Organization.

We, in California, accept that challenge.

Every man and woman in this state having at heart the real interest of the workers should vote against and work against the election of Olson.

From the present governor, Frank F. Merriam, organized labor has not received all that it has asked, but labor has received from Merriam a square deal and it has always been able to sit down with him and discuss its problems.

Governor Merriam has repeatedly stated his indorsement of the principles and ideals of the American Federation of Labor as opposed to the intentions of the CIO.

Under such circumstances, organized labor can have but one choice for governor of California. That choice is Merriam.

If there is any doubt of the course that orgnized labor shoud follow, a letter just received from William Green, president of the American Federation of Labor, should settle it.

In his letter, referring to Olson, Green said:

"It is my opinion that the workers of the state of California are not justified in supporting any candidate who is given the support of those who are so bitterly opposed to the policies of the American Federation of Labor."

Outlining his attitude on the California election, Green sent the following letter to Casey:

American Federation of Labor
Washington, D. C.,
October 12, 1938.

Mr. J. M. Casey,
International Organizer,
Teamsters' Union,
San Francisco, California.

Dear Sir and Brother:

The policy that I have pursued for many years as President of the American Federation of Labor is to refrain from entering into the political election of state officials in the many states. The only occasion on which I have deviated from this policy is where in my judgment it is necessary and when I am requested for an expression by outstanding leaders in the labor movement affiliated with the American Federation of Labor in the particular state concerned.

Many officials of International Unions of California have talked to be about the question of their candidates for the office of Governor in that state. My information from those men, whom I know and respect is that the present governor of the state of California has made a statement that he believes in the policies, leadership and principles of the American Federation of Labor. One of the main questions before the voters of California in the coming state election is whether or not a candidate shall be elected to the position of governor who has been espoused and backed by every enemy of the American Federation of Labor.

Under these conditions and circumstances it is my opinion that the workers of the state of California are not justified in supporting any candidate who is given the support of those who are so bitterly opposed to the policies of the American Federation of Labor.

Fraternally yours,
WM. GREEN, President,
American Federation of Labor.

BLACK SAND GIVES SNIPERS ADDED INCOME

Hal D. Draper, local assayer and gold buyer, purchased two more lots of concentrates Wednesday forenoon and shipped them to the new firm in Bakersfield. Mr. Draper stated the new plant promised for Auburn will not be built for a time in order to test the volume of trade first. The plant at Bareksfield is being enlarged to 25 ton per day capacity. Mr. Draper has two more lots of concentrates ready to ship as soon as assays are made.

The sale of black sand will also form part of this firm's business and should prove a boon to snipers along the many mountain streams, who are making small wages. One miner on Deer Creek brought in 23 pounds of black sand for a half days work and made $2.11, while another from Forest brought fifteen and three tenths pounds and received $15.44. Black sand in various localities carries different values. Mr. Draper stated some arsenical concentrates from the Alleghany district will assay $2.20 per pound. The best assay so far was $3,014 per ton.

TAHOE UKIAH PROBABLY OPEN ALL WINTER

Twenty members of the Nevada City Chamber of Commerce talked over several important matters pertaining to the city at its regular meeting last night. The routing of the Tahoe Ukiah highway through Nevada City was considered and also a membership drive in the near future. Two new members, Mrs. Mae Carr and William Home were taken in last evening.

F. F. Cassidy, local merchant, stated he had dined with a state official in Sacramento Tuesday and had been practically assured the Tahoe Ukiah will be kept open throghout this winter.

LADIES NIGHT AND BUCK STEW FOR ELKS

The Elks are having a rollicking celebration Saturday, October 22, at 7 p. m. in the Elks Home at Nevada City. This will be the first ladies night of the fall season. A special barbecued buck dinner is to highlight the evening's events, and dancing and other entertainment may be enjoyed by all who attend. The price is one dollar per plate.

CROOKED CHECK MANIPULATIONS, ROTARY TOPIC

W. H. Brownlee, manager of a San Francisco check protector company, gave the Rotary club at luncheon yesterday an excellent description, illustrating by sleight-of-hand feats, of how crooks operate, not only to "lift" purses and wallets, but also how they operate to "lift" the figures on checks. Horace Curnow was program chairman.

Brownlee stated that last year the losses of the United States through altered, forged and "rubber" checks totaled $362,000. All companies which manufacture check protectors also give a bond to protect the users of their particular device in case checks thus issued are forged or altered. The most common offense is the issuance of checks that bounce back.

Checks in small towns, Mr. Brownlee said, change hands on average of 8 to 10 times before they return to the person who issued them. In San Francisco, the average is about 42 times and in New York it runs up to 300 times. There is therefore abundant opportunity for crooks to alter checks and cash them long before they are returned to the man who wrote them.

Recently a negress was arrested for forgery in a small town who had money on deposit in 42 banks most of them some distance from the scene of her operations. She had a habit of examining the mail in the apartment houses and removing checks from envelopes without unsealing the flap. This was done by poking, in an unsealed corner, a tiny instrument rolling up the check and drawing it out.

Regarding some of the exploits of check artists, Mr. Brownlee said that only a short time ago, a big construction company of New Jersey issued a check for $27. This was raised to $27,000 and cashed. During his talk he gave several amusing illustrations of how crooks work He deftly removed from the inside coat pocket of one of the members, a wallet. He apparently extinguished a cigarette in a white pocket handkerchief, shook out the handkerchief, which showed no signs of burn or ashes, and then picked the burning cigarette stubb from the cuff of his trousers.

DOWNEY WOULD CURE U. S. ILLS BY REVOLUTION

SAN FRANCISCO, Oct. 20.—Former Governor C. C. Young tonight dramatically entered the California political campaign by confronting Sheridan Downey with evidence that Downey has advocated revolution as a cure for the nation's ills.

Urging the election of Philip Bancroft, the Walnut Creek "fighting farmer" to the United States Senate, Young described Downey as a radical rainbow-chaser.

The charge af advocating revolution was based by Young on Sheridan Downey's book, entitled "Onward America" and published in 1933. Young quoted the following passage from the Downey book:

"Revolution, if it were successful would but mean the overthrow of our present impotent political leadership and the induction of new officials and new forms of government. And a successful revolution, if wisely and agrressively led, conceivably might bring us in the immedite future to that happy state of material well-being which all long for and of which most of us despair."

The date of publication of the Downey book, 1933—after President Roosevelt took office—and the reference to "impotent political leadership," was in strange contrast to Downey's recent professions of loyalty to Roosevelt.

Governor Young said:

"I submit that this is the United

(Continued on Page Eight)

Mine Employment in Nevada County Again Shows An Increase

The survey of mining activity in Nevada County this month reveals a considerable increase in employment. Reports from almost forty active mining properties show a total employment of 2,564 men as compared with 2,486 last month This means a monthly payroll of $384,600.

Three of the larger operators, Empire Star, Idaho Maryland and Lava Cap, have added to their working forces in the past few weeks. Among placer properties listed are Dakin company and Melville, employing respectively 12 and 16 men. Giant King has resumed under the management of J. M. Hoff with 11 men employed, and the Taylor claims are being tested by a crew of four. The following reports have been received from various mining properties:

ROSEMONT PROPERTY

Gove C. Celio has spent some time the past summer developing the property in the Remington Hill district in which he and his father, W. B. Celio are interested. The tunnel is in 925 feet and Celio has a washing outfit to treat gravel. A road is being improved into the property by Gove Celio during the past few weeks. He is greatly pleased with prospects found so far. Old time miners took out good pay on this property.

AZALEA PROPERTY

Connelley Brothers are operating the Azalea Hill mine at Graniteville. The shaft is being sunk to develop ore, preparations are being made to run all winter. A bunk house, kitchen and dining room and a building over the shaft are under construction. Six men are employed.

RUBY MINE

Diamond drilling is in progress at the Ruby mine between Forest and Goodyears Bar in order to locate a rich old channel. Intrusion of another channel from the east cut into the rich paying Mott or York channel which has been breasted 1500 feet. If the old channel is not located work will continue on rich veins in the long tunnel. No curtailment of operations is contemplated by interests operating the property. L. L. Huelsdonk is superintendent.

MINE OPERATOR COMPLETES ROAD TO WASHINGTON

J. M. Hoff, interested in the Giant King mine near Washington is mining between 35 and 40 tons of ore and trucking it to the Gracey mine mill on Gold Flat southeast of Nevada City. Mr. Hoff states the ore is good milling grade. Since reopening the property about three months ago Mr. Hoff has had a crew completing the new road into Washington. The WPA project it is stated spent $19,000 on one half of the road and he completed the rest for $2,000. The new road will be of great benefit to the town of Washington as it cuts out steep pitches and gives a four per cent grade in most places.

In driving over the new road the turn off is at Quartz Flat where a four per cent grade prevails two miles to the Washington Giant King mine. Another two miles down Washington creek brings the road into the little town over an easily traveled road. This road will need graveling before winter sets in.

JUDGE TUTTLE SEEKS SEAT ON APPEALS COURT

Judge Raglan Tuttle of Nevada County's Superior Court, has applied to Governor Merriam for appointment to the seat on the Appellate court, now vacant following the death of Justice John A. Plummer. Judge Tuttle was unopposed for reelection to the Superior Court at the August primary.

He has written 150 Appellate court decisions while serving in a relief capacity on the Appellate bench in both Sacramento and San Francisco.

He has often been selected by the State Judicial Council to sit in notable civil and criminal trials, some of which have attracted state-wide attention. He presided, for instance, at the trial of the dynamiters, who were apprehended while enroute to blow up Standard Oil properties in the San Joaquin valley. Attempts to secure a reversal of his rulings and judgment in that case, by appeal to higher state and federal courts, have been defeated all along the line.

Few jurists in California have a wider acquaintance, or are more universally respected, among the legal fraternity, than Judge Tuttle. He was born in Placer county and practiced law in Auburn for many years before coming to Nevada county. He is a graduate of the University of California and its affiliate, Hasting's Law School.

MASS MEETING ON AMENDMENTS

A mass meeting will be held at the Memorial Building, Grass Valley this evening at 8:00 p. m. Outstanding speakers from all parts of California will present the pro and con of the most important amendments appearing on the November 8 ballot. A summary will also be given on the other amendments.

This is an opportunity for citizens to acquaint themselves with these important initiatives. The meeting is non-political and non-partisan and is not for the passage or defeat of any enactment. It is for the purpose of bringing to the voters both sides of these important questions. The meeting is free.

Time To Do Something About It

It is nearly seven months since the Mexican government seized the British and American-owned oil lands, and it is five months since Mexico broke off diplomatic relations with Great Britain because the latter government insisted that stealing was stealing and that Mexico's irresponsible government was camouflaging its actions under the name of "expropriations."

About sixty per cent of the hundreds of millions of dollars worth of oil properties belonged to the British, and the London government went to the mat for their rights, and under all the principles of international law they are pretty likely to be in on the ground floor when the inevitable day of judgment arrives.

But our patient government has entirely failed to insist on the observance of international law ,and thereby protect huge American investments in Mexico. The vast oil properties are not being properly cared far, and their real former owners are barred from the premises. As for visitors they are "not allowed."

"The stricken port of Tampico and the neighboring scene of an oil activity that once gave strength to the industrial life of Mexico, labor to many thousands of its citizens, taxes by the millions of dollars to its government and sent the useful product of these great wells into the world's activities" is going the way of ruin so fast, writes former U. S. Senator Henry J. Allen, of Kansas, who has just returned from Mexico, that he believes "in a year the swift deterioration of incapable administration it will not be worth stealing."

The policies of our government toward oil development in foreign lands were established in the years when Woodrow Wilson was having trouble with Mexico; when Calvin Coolidge was urging American interests to go abroad with the support and encouragement of their government to develop new oil fields; when the Geological Survey was urging the pioneer spirit to lead American capital and engineering to seek new petroleum supplies for the "America of tomorrow"; when the Federal Trade Commission and the Fuel Administration were emphasizing the importance of protecting American capital and workers in foreign oil fields; when all responsible parts of the United States government were encouraging plans to insure the oil supplies of the future through operations exactly like those in Mexico.

As stated above, seven months have passed since Mexico stole the oil properties. Despite volumes of assurances—like the above few samples—that American property interests would be protected, the U. S. government has yet to send the first official note to the Cardenas government demanding payment, or return of the properties to our citizens.

The tenor of opinion expressed by many leading editors of United States newspapers is that it is time to do something about it.—Contributed.

Cotton And The Carryover

There is a surplus of 13 million bales of cotton. "Cotton Ed" Smith headed a delegation from Southern states to Washington to ask that the rate of loans by the government be raised. The President wouldn't see them. The Agricultural Department thought the "peak" had already been reached.

Secretary Wallace, in Texas, told about the further possibilities of using cotton for industrial purposes. Economists and industrialists, say that the "peak" cannot be expected to lift enough in a short time, to do much good.

Subsidies to manufacturers, and gifts of cotton goods to the poor, and those on relief are suggested remedies. The suggestions are not new in meeting an "emergency."

The situation is very serious—and no one knows better than Secretary Wallace that the answer is still missing. Someway, somehow, the government treasury will have to get back of the cotton carryover, even if a new roof has to be put over the "peak" of loans.—Contributed.

HIGHWAY DEATH TOLL DECLINES

SACRAMENTO, Oct. 20.—A graphic picture of traffic death reduction in California was presented today by Ray Ingels, director of motor vehicles, with the announcement that the total deaths for eight months this year is approximately the same as the total for seven corresponding months last year.

The figures show 1,687 deaths during the first eight months of this year as compared with 1,953 for the same period in 1937. In the first seven months of 1937 there were 1,685 deaths as compared with 1,687 during eight months this year.

Accidents on rural highways under control of the California Highway Patrol have declined sharply with 852 deaths for the first eight months of this year. In 1937 there were 1,002 deaths during the corresponding period.

GOLD EXHIBITS $50,000 VALUE SHOWN AT FAIR

Gold exhibits at the Nevada County fair were valued at $50,000 and the following awards were made to mines and individuals. Prizes were $75, first; $50, second and $25, third.

Miss Frances Jones, Grass Valley, first, gold nugget, Mugwump mine. It is believed Dennis Coughlan of Nevada City mined this nugget from the Mugwump mine about 20 years ago when his brother, Jay Coughlan now supervisor returned to his home at Columbia Hill after the world war and was chosen as superintendent of the gravel property.

Dennis Coughlan, nugget from his Yellow Jacket mine, Forest, second.

Best exhibit gold quartz, Black Oak mine, first; Dr. Carl Jones, second. The famous Jones nugget came from the Red Ledge mine; Empire Mines, third.

Best collection placer gold, L. G. Beloud, You Bet.

Largest bar gold, facimilie, 857 ounce from Idaho-Maryland mine.

Largest piece of silver ore, 630 ounces per ton, Lava Cap mine.

Largest piece quartz gold, Idaho-Maryland mine.

Largest amount of sponge gold, Black Oak mine, of Garden Valley. It was valued at $4,900.

Best collection gold quartz specimen, Black Oak mine, first; Idaho-Maryland, second and Empire, third.

Largest collection uncut gems, Marian K. Mason, Applegate, first; Mrs. Gerald Peard, Grass Valley, second.

P. G. & E. APPEALS CASE TO HIGHER COURT

The Pacific Gas & Electric Company has filed notice of appeal to the district court of appeal from the jury's verdict in the case of Carl J. Tobiassen et al awarding the plaintiff $15,435 for losses sustained by them in the fire of 1936.

The notice of appeals states that the verdict is against law, and not supported by the evidence. It also alleges errors of law occurring at the trial.

RIDGE PLACER GROUND TESTED

A large mining deal that will be of great interest and benefit to North San Juan and Nevada City is the leasing of several hundred acres of ground between North Columbia, Cherokee and Tyler to B. L. Melville of San Francisco. The office and headquarters have been established in the National Hotel in North San Juan where Mr. Melville is now living. Diamond drilling started ten days ago to test old gravel channels on the big holdings.

The new keystone drills were trucked through Nevada City Monday and Wednesday, the latter weighing seven tons. Mr. Melville has a crew of 16 employed and four drills on the property. When ready, it is understood, a dragline will be used.

FUNERAL OF MARY McCUTCHAN

The last remains of the late Mrs. Mary McCotehan were laid to rest in the Catholic cemetery on West Broad street Wednesday morning. Rev. Father O'Reilly read the services. Arrangements were in charge of Holmes Funeral home.

ROBERT TAYLOR COMING IN "THE CROWD ROARS"

Robert Taylor drives many miles out of his way to patronize a Hollywood drugstore. As the store's best customer, he is paying back a debt. Several years ago, when he was Arington Brugh, Taylor breakfasted at the drugstore on his way to the studio. Ofter short of funds he signed the checks. Taylor, who is now starring in "The Crowd Roars", coming Sunday to Nevada Theatre, was then getting started at Metro-Goldwyn-Mayer. He redeemed the checks from his first movie salary. The clerk who befriended Taylor still has several of the checks, marked, "Paid, Arlington Brugh."

SENATOR YOUNG FEARS A LABOR DICTATORSHIP

SAN FRANCISCO, Oct. 20.—"It is the most amazing paradox of our generation that we, the citizens of one of the great states of the world's foremost democracy, should be harassed with threats of actual dictatorship right in our midst," declared Senator Sanborn Young. "But dictatorship is precisely what we have every time the peculiar present-day labor leadership of certain groups orders a stoppage of business while they proceed to attempt to bludgeon employees into running their businesses the way these would-be dictators decree."

Senator Young, who is chairman of the California Committee for Peace in Employment Relations, added that State Proposition No. 1, which is to be on the ballot at the election November 8, was written with the idea of removing this threat of dictatorship by any leadership.

"Naturally, since this sort of un-American conduct of labor affairs stops the pay-checks of many workers, and raises the prices of commodities the consuming public must have, it tends to check business recovery," he continued. "At the same time, it is a menace to the security of all citizens, because the attitude of those who do not hesitate to tie up whole industries is such as to inject uncertainty into our whole economic structure."

Senator Young concluded his statement by asserting State Proposition No. 1, if enacted into state law would eliminate all destructive labor abuses and bring an industrial peace which, as he expressed it, "is sure to prove of equal benefit to employees and employers alike, while protecting the public's interests, too."

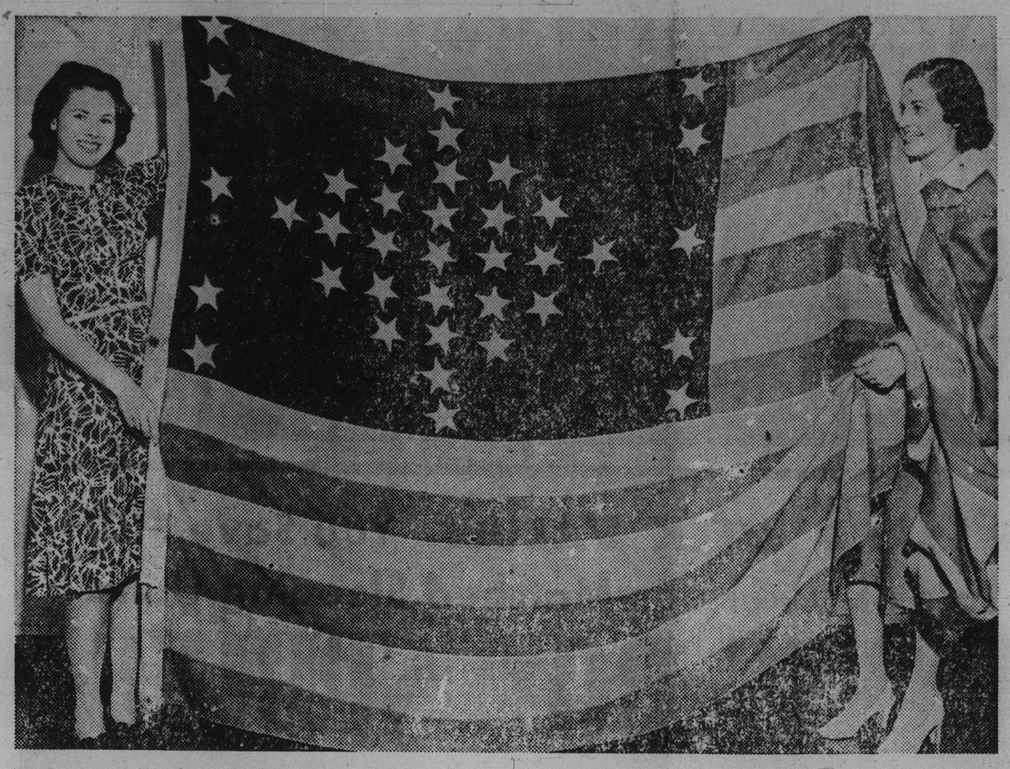
First All-United States 'Old Glory'



"Old Glory" itself, the first American flag to be made with American-manufactured bunting, is the treasured possession of A. N. Goldsmith of Los Angeles. Approved by Abraham Lincoln three days before his assassination, the flag has 13 stripes of red and white and 37 stars, all but 10 of which are arranged in a diamond-shaped pattern on the field of blue. It is the only flag of this type in existence. It measures 12 feet by 6. Holding it are Mary Long (left), and Bettye Knapp.

Eugene Barberi of lower Broad street killed a fine buck the day before deer season closed. He is an ardent hunter and had had poor luck until the last day.

EVANGELIST PERRY TO PRESENT FILM

Evangelist Paul H. Perry, will appear at the Trinity Full Gospel church on the Colfax highway, near Memorial park, tonight at 7:30 to deliver a message and show motion pictures relative to his subject "This Doomed World."

The public is invited to attend.

The pictures shown by Evangelist Perry will emphasize the present crisis in world affairs, the preparations for war in Europe, the films of the China war and Panay bombing all connected to the biblical prophecy by the speaker.

Cheney, Oakland; P. F. Murphy, Oakland; D. Van Ranen, China; W. E. Dopkins, Sacramento; J. Garnett, Sherwood; V. L. Naake, Sacramento; H. R. Levick, San Francisco; J. H. Watchett, Oakland.

Mrs. P. Armstrong who has been quite ill the past week, was able to be about Nevada City Tuesday and her friends hope for her steady improvement.

HIGH SCHOOL NOTES

By JEAN MARTZ

The Home Economics Club held a meeting Wednesday. The purpose of the meeting was to appoint committees for the "kiddy" party to be held some time in October. Victoria Soga and Evelyn Elliott were appointed to head the committee, and many of the members of the club volunteered to help.

Dr. Armstrong and the nurses gave the students tuberculin skin tests on Monday; and the reaction was checked and second injections were given on Wednesday. Those who reacted positively or who showed a reaction in previous tests, will go to Wiemar to be X-rayed. Dr. Hummelt and three nurses have charge of the second injection. The pupils are very glad to have a chance to be sure that they are free from the dread disease. These tests are given to the students free of charge. They are sponsored by the Tuberculosis Association and are paid for by money from the sale of Christmas seals.

YELLOWJACKETS TO PLAY PLACER HIGH

The Yellow Jackets will go to Auburn Saturday to compete with the Placer Union high football team. Coach Martin has been hindered by the loss and injury of some of his players, and he has had to make many changes in the line-up. Those who are playing will go to Placer and fight with every ounce of spirit in them. The students of the high school wish to charter a bus so they can go to Auburn to back up their team.

Mr. and Mrs. Charles E. Parsons are again proud grandparents. A son was born to their daughter Mrs. H. W. Bishop in Springfield, Vermont on October 8. Mrs. Bishop is the former Miss Katherine Parsons.

Mrs. B. F. Dodge of West Medford, Mass., is spending several weeks with her cousin, Mrs. C. E. Parsons. Mrs. Dodge, with friends drove across the continent. The trip covering 5000 miles as they visited many places of interest enroute to California.

THINKING OUT LOUD

(Continued from Page One)

lar. He could not stay put long enough to be called either a reactionary or a radical, though at the moment he might be described as blush-rose pink. He got his nomination on a "Ham-and-Eggs" platform, but recently while visiting President Roosevelt, who does not approve of "Ham and Eggs' pension financing, Mr. Downey backed away from the plan, a little disdainfully. Since his nomination, it would seem, "Ham-and-Eggs" has become strictly a state issue, with which he has no concern.

All three so-called Democratic candidates are wearing false colors. They are neither Democrats nor Republicans. They are the red and yellow political hybrids that Harry Bridges, the CIO and communists have picked to serve in the state and national capitol. It is our firm belief that California will repudiate Mr. Bridges' selections.

The battle on November 8 is NOT between the Democrats and Republicans. The State of California is beleagured by an army of "ham and egg" cranks, by battalions of "direct-action" CIO-communists, by whole divisions of organized WPA and other New Deal pensioners, and by moronic regiments that would free a red-handed murderer. It is a battle in which the stable elements of the population are fighting to preserve order, to maintain sanity in government, and to prevent the seizure of their homes and means of living by wastrels, idlers and malcontents. Democrats and Republicans are fighting side by side to turn back this motley horde.

TUBERCULOSIS STAMPS

Five thousand sheets of Tuberculosis stamps were sent to the Boy Scout meeting at Seamans Lodge Wednesday evening and the boys folded the sheets for mailing. These stamps will be ready for the mail around Thanksgiving time. Mrs. E. T. Bonner, seal sales chairman, is working under John Mann of Grass Valley who is interested in the Nevada County Tuberculosis Association.

SISSON MINE

Warren Sisson is in charge of operations on his property, the Sisson mine ten miles northeast of Downieville. He has seven men employed driving a tunnel on the vein. Marshall Elder is foremn. A three mile road was built from the mine to Gold Valley toward the Gold Lake area this summer. If the winter is not too severe plans are to work all winter.

IT'S STRONGER THAN BEFORE, WE SAY, THE O. K. TIRE WELDING WAY!

For very little we can make that old casing give you thousands of extra miles. An O. K. weld repair is stronger than the rest of the tube or tire. It is absolutely dependable and permanent and will stand any wear or abuse that the tire itself will stand.

JAPAN SLASHES FREIGHT RATES TO SOU. AMERICA

SAN FRANCISCO, Oct. 20.—A new shipping war in South American trade has been started by the Japanese-owned Yamashita Line by a slashing of the Brazil-California coffee rate from $1.00 to 50c a bag. This action, writes Walter Radius in the current Far Eastern Survey of the American Council of the Institute of Pacific Relations, culminates Japanese efforts to cut into the present lucrative trade controlled by an American and a Norweigian line.

During the past few years three Japanese companies have increased services north bound from Argentina and Brazil. All trade on this route has been under the control of the Pacific Coast River Plate Conference Agreement, with the Osaka Shosen Kaisha line as the ony non-member. For some years the O. S. K. line has been trying to capture some of the coffee trade or nearly 500,000 bags a year by offering a rate of 80c a bag, but without success. Shippers are under contract to conference lines, and services offered by O. S. K. have not been as regular and dependable.

The Yamashita Line withdrew from the conference when its demands for an increase in the mimimum guarantee were refused and since, has cut its rate on coffee by 50 per cent and on canned meats 33 per cent. It is anticipated that the O. S. K. line will take similar steps.

Since the East Coast of South America to the Pacific Coast of North America is only one leg of the services of Japanese lines, it is advantageous for the operator to fill empty cargo space at any rate which will merely cover out of pocket handling charges, with a small margin for overhead. Moreover, the great need for foreign exchange, in which shipping freights have been one of Japan's major sources, has forced Japanese lines to concentrate on increasing the services between foreign ports. Since most of the routes affected are covered by conference agreements, the only way in which the Japanese can achieve results is by an undercutting policy N.ew Japanese subsidies are contemplated, even to the extent of aiding tramp shipping.

Since serious dislocation of conference agreements and freight schedules will occur if vigorous rate wars are waged, Mr. Radius concludes that operating differential subsidies provided for in the Merchant Marine Act of 1936 will be insufficient to protect American flag operators. Resort might have to be made he believes, to the awarding of additional subsidies to offset Japan's aid.

IDAHO-MARYLAND MINES

A well laid out surface program started early this spring at the Idaho-Maryland Mines will be completed in about a month. The addition to the dry house and talings dam are completed and the new welding shop is nearing completion. The company has a payroll of 95 men at Forbestown where work is continuing satisfactorily.

RIVER PLACERS

The old River Placers property formerly owned by the Poorman interests and bonded to the American Lead and Zinc company, it is claimed will remain closed until 1940 when it is expected the Narrows Dam will take care of debris from hydraulic operations. It is stated testing of the old channel will continue.

SHARPE PROPERTY

Frank Holbrooke who has the Sharpe property in the Blue Tent section leased from the J. J. Jackson family, started the mill on good grade milling ore last Wednesday. The vein ranges from a few inches to over a foot in width and is rich enough to pay mine operations. Mr. Holbrooke suffered a broken leg about three months ago while at work at the mine with his two partners and was able to start to work about a week ago.

HOT WATER MINE

The Hot Water mine in the Graniteville district is what would be estimated as the dream of most mining men. From the very first work the ore has proven rich and concentrates are satisfactory for a steady yield. The property is not for sale and the operators are content with the returns from their work. Two men, W. L. Baker and J. L. Jackson took an option on the property and now have three men employed. The ore runs approximately an ounce of gold per ton on a vein that averages from one to three feet in width. The shaft is down 84 feet and a drift has been driven 40 feet. A small mill on the property treats the ore.

INNES GRAVEL

Crews at the Innes gravel property on Deer Creek west of Nevada City, have been delayed in mining gravel due to blasting reefs found in the creek. The men resumed work with the gradline and trommel Wednesday. A delay of this sort is expensive to the company. J. M. Innes is in charge of operations on his property which comprises several hundred acres.

DAKINS DRAGLINE PLACERS

The Kanaka Corporation which moved from its scene of operations on Kanaka Creek near Alleghany last month has changed its name to the Dakin's claims All equipment has been taken to the new operations on Wolfe Creek and work started two weeks ago Six men are employed under Superintendent Robert McAfee.

Frank Clark, mining engineer who has spent the summer at Downieville on mining projects, passed through Nevada City yesterday to visit in Oakland. He will attend the Stanford-U. S. C. football game while there.

Jim Kistle and three partners, who have a lease on the Daisy Blue mine, in the Cement Hill section northeast of Nevada City are making fine progress in developing the property. A big mill on the property treats the ore as it is mined.

Mrs. Blanche Neaves has the foundation on the first of three houses well under way with Robert Steger and Sons in charge of the work. In the group will be one four and two three room houses and all will be for rent.

A daughter was born on October 18 to Mr. and Mrs. H. W. Bishop, at Springfield, Vt. The baby is the grandchild of Mr. and Mrs. C. E. Parsons of the Gillet Nursery, this city. It is their second grandchild.

Herbert Whip, who has a chicken ranch on the Tahoe Ukiah highway east of Nevada City was successful in winning all prizes in the class of White Leghorn chickens he entered. The birds are the Lawrence strain and he paid $5 apiece for his chicks when one day old.

STOCKTON HILL MINE

High grade ore is being shipped as mined at the Stockton Hill mine south of Grass Valley. Crews are down over 360 feet in a sinking program that will go to the 600 level. It is stated a six foot vein in the bottom of the shaft assays $35. per ton or an ounce of gold per ton. Ore is blocked out on three sides on the 265 foot level and the same method will be carried out on the 400 and 600 foot levels. W. R. Woock of Auburn is superintendent.

BLACK PRINCE MINE

Joe Marriott and four partners have a lease on the Black Prince mine at Nevada Citys western city limits.

Mr. and Mrs. S. B. Hieronimus returned Friday from a two weeks vacation spent in Santa Barbara, Santa Cruz and San Francisco.

STILL TIME TO SEE THE SHOW

MARTIN'S UNITED SHOWS

AMERICAN LEGION GROUNDS

Will Continue to Show in Grass Valley Until Saturday Night

—ADMISSION TO GROUNDS FREE!—

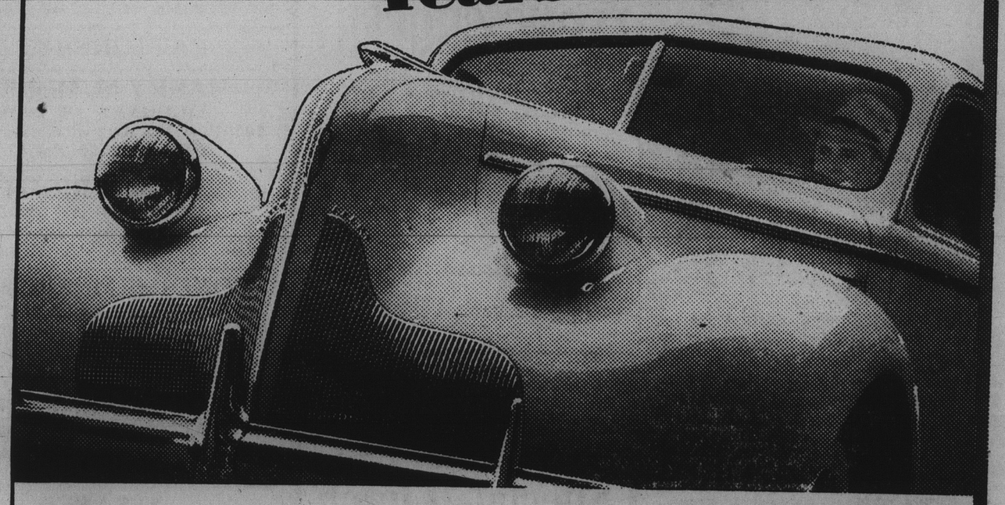
Good Clean Fun! Amusement for the Entire Family! A Grand Place to Spend an Evening!

SPECIAL—Children's Matinee, Saturday afternoon at 2 o'clock. All rides and shows 5c

Martin's United Shows offers the only stream-lined Merry-Go-Round west of New York. One of the highest traveling Ferris Wheels on the Pacific Coast.

Many Other Thrill Rides—All 1938 Models.

It looks like Five Years from Now!



THE vast Buick factory is a grand place to visit, these days.

Down the roaring aisles, throughout the sprawling bays there's a feeling of great things happening.

They're building something ultra, here at Buick, and they know it.

It looks like five years from now, they'll say of this dazzling 1939 Buick, and they're not talking of appearance only.

They're talking of "catwalk-cooling" that floods air under forced draft to ease the temperature of your engine.

They're talking of BuiCoil springing and the soft shock-smothering spirals that give you the true "full float" ride.

They're talking of that Dynaflash great *eight* engine, instant with life and wringing good from every drop of fuel.

They're talking of wheels that camber to let you take the curves more safely—of new *visibility*—up to 413 square inches more glass in SPECIAL and CENTURY models.

They're talking a thousand and one details of Buick that you'll never know nor need to know but that to their schooled eyes spell a better built automobile.

You can see this car they're talking of at the nearest Buick showroom.

When you do see it, think of what the men who built it are saying, not boastfully, but with quiet sureness.

They *know*. And they're saying, "Looks *fine* for '39!"

MRS. HELENE DAVIS COMPLIMENTED ON BOOK

Mrs. Helene Ebeltoft Davis, authoress, whose book, "The World is a Round Thing," received a letter Tuesday from Harper's Publishing company stating her book was on the list of the New York library as outstanding volume of 1938. It is also listed in the Childs Study association. Mrs. Davis, wife of H. P. Davis, engineer and author, came from the east two years ago. Mrs. Davis is receiving many compliments upon her book.

Frank C. Zittel, local contractor, is placing a new roof on one of Hal Draper's houses on Pine street.

800 EMPLOYERS ARE REGISTERED DAILY

More than 800 employer registration forms are being received daily at Sacramento headquarters of the State Department of Employment as a result of a drive by the department to complete registration of every California employer.

This announcement was made today by Edward E. Steele, manager of the department office in Grass Valley, who said employers in this vicinity are co-operating with the department by mailing in the registration forms.

On October 19, officials at Sacramento announced mailing of 160,000 forms to as many employers through out the state will have been completed, and after October 25, extended field investigations will be inaugurated to complete the registration work, in the event there still remain employers who have failed to register.

HUNTING BEARS

Bear season opened saturday to last a month and a party from Nevada City spent the opening day in the Skilmans Flat section looking for the big clumsy animals without success. They hunted from the flat into Bear Valley. In the group were Elish Curtis, Joeo Muscardini, Mrs. I. Henwood and children, Clemente and Joyce, Miss June Curtis and Mrs. C. Muscardini.

Mrs. Earl Wolfe of Reno, returned home Sunday after a delightful visit in Nevada City with Mr. and Mrs. Walter Weege.

NEW ARMY AIR CHIEF

Brig. Gen. Henry H. Arnold, assistant chief of the army air corps, who is now acting head of the force since Maj. Gen. Oscar Westover was killed in a plane crash. One of America's real early birds he has been flying since 1911. He is a graduate of West Point, has been a commissioned officer since 1907, and twice won the Mackay trophy.

TINY GLOBE-TROTTER

Margit Elizabeth Mary Tempke, just three years old, poses for photographers at New York on her arrival all by herself from Finland, where she visited her grandparents for a year. She is on her way to Montreal, Canada, where her parents live.

PRIZE BUNNY

Jerry Clark poses with Earl of Boywood, imported angora rabbit named grand champion in rabbit show at Los Angeles county fair. The fluffy angora defeated 3,030 competing rabbits as champion.

RESIGNS IN PROTEST

From Aunt Sarah

Stuffed green peppers are an excellent dish to prepare for a busy day. They may be prepared hours or even a day ahead of time for baking. The following recipe is only suggestive as any left over meat may be substituted for the ham in the recipe.

Stuffed Peppers—(Serve Six)

Six green peppers. 2 tablespoons onion (chopped). 3 tablesoons butter. 1 1-2 cups rice (cooked). 1 1-2 cups ham (chopped). 3-4 cup tomato soup. 1-2 cup cheese (grated). 1-2 cup crumbs (buttered).

Remove stem ends, the white membrane and the seeds from the peppers.

Parboil for 2 minutes in boiling, salted water. Cook the onion in the butter for a few minutes and combine with rice, ham, cheese and the soup. Fill the peppers with this mixture, top with grated cheese and buttered crumbs. Place in a greased baking dish and bake in a moderate oven (350°) for about 30 minutes.

These may be prepared wel in advance of time for cooking and left in the refrigerator till time to cook.

THIRTY PIECES OF PAPER WORSE THAN WORTHLESS

By RALPH H. TAYLOR

The farmer, better than most men, knows that before the harvest there must be a season given over to planting and tilling the soil.

Close to reality, accustomed to natural laws and economic fundamentals, the farmer recognizes that we must sow before we reap!

It would be well if every voter, regardless of his business, trade or profession, could somehow share the farmer's understanding of those elemental truths before General Election day, November 8. For the ballot this year is studded with measures which are in defiance of every law of nature and economics — which proceed on the false assumption that society can wave a magic wand and produce "something for nothing".

Since the world began, men have sought "perpetual motion"—always unsuccessfully; since the dawn of civilization, visionaries have dreamed dreams of Utopia—of a land of milk and honey, without worry, or sweat, or hard labor. But in this imperfect world, it has never been achieved. And there is convincing evidence that it can't be achieved at the November election, despite the fervid hopes of those who have forgotten that the world, through all the ages, never has yielded: "something for nothing."

It is not a pleasant task to blast dreams and destroy hopes, but California, if it is to escape disaster, must face facts and deal with its problems realistically. It must analyze its "panaceas" and—finding them wanting—buckle down to the job of sowing and tilling the soil, as a necessary preparation for the harvest. And it must reflect that attitude in its voting; it must call a halt to the era of patent medicine faking.

Particularly sad is the delusion being perpetrated on hundreds of thousands of California's older citizens that Proposition No. 25—the so-called "ham and egg" proposal—will provide them with "$30 Every Thursday" and thereby resolve all their difficulties.

If this twentieth century hoax should be enacted, it would be almost certain to be declared unconstitutional.

But if, by wild chance, it escaped that fate, it would bankrupt the state if actually placed in operation—and the pension system would go down into bankruptcy along with everything else.

California bankers have announced officially (despite all claims of pension patent medicine men to the contrary) that they would not and could not accept the pension warrants in exchange for cash, or for deposit, investment, or loan collateral.

And if the bankers will not accept them, neither can California merchants—for the warrants must be kept in circulation to maintain their theoretical value. It stands to reason that if merchants can not exchange such warrants at the bank for cash, nor give them to their manufacturers or wholesalers in trade (and certainly they can't, for the warrants will have no value outside of California), any merchant who sought to handle them would soon go bankrupt.

But apart from all this, any reasonable person, if he pauses to consider, cannot help but see the fallacy in the "$30 Every Thursday" scheme. If the plan were actually placed in operation, the average retired citizen in California would receive more for doing nothing than the average worker received for working. That is "something for nothing" carried to the extreme, for it places a premium on indolence—and places pensions above paychecks.

The present state sales tax—California's greatest revenue producer—yields slightly less than $100,000,000 per year. The stamp tax on the "ham and egg" warrants—to be effective—would have to yield ONE BILLION, FIVE HUNDRED AND SIXTY MILLION A YEAR It would mean a tax fifteen times greater than the sales tax, with working citizens denied common necessities to buy pension luxuries. Under such a condition, what incentive would there be for farmers to farm, or manufacturers to manufacture? The whole thing is preposterous; for those who beieve in it, it is worse; it is the road to tragic disillusionment!

YUBA COMMISSIONER PRAISES NEV. CO. FRUIT

H. A. Crase, agricultural commissioner of Yuba County, who was one of the assistants at the Nevada County fair and has handled decidious fruits throughout the west many years, was amazed at the display of fruits grown in this county. He especially praised the apples, pears and plums for their rich colorings, size, type and flavor. He did not realize this county could produce such fruits. Agricultural Commisssioner L. G. Lageson of Nevada County stated yesterday this county is about the only one in the state that will show a profit on pears this season. Many persons fail to realize the money for the county fair did not cost the county money but was raised through a state fund created through pari mutual betting. Next year a sum of a several thousand dollars will be allotted to Nevada County also for a beginning on a county fair building.

Bride Honored by Laurel Parlor Party

Laurel Parlor, N. D. G. W., gave Mrs. Albert Pratti, recent bride, a complete surprise after the meeting Wednesday evening when she was given a kitchen shower. Mrs. Annie Hooper was chairman of the program and was assisted by Mrs. Elza Kilroy, Mrs. I. Guenther, Mrs. Gill, Mrs. Harry Bolton and Miss Kaite Kinkead. A spelling contest was won by Mrs. Belle Douglass and Mrs. I. Gleason. The door prize was won by Mrs. Nora Austin.

As the little bride was showered the lights were turned off and eight members dressed in odd costumes marched about the room and stopped in front or her to give her a charivari and then called for lights. As the lights were turned on two boxes of gifts were presented and were opened to display many useful any pretty presents.

A Hallowe'en color scheme was used in decorations and refreshments consisted of cider, apples and grapes.

CARS MEET HEAD-ON

A noisy crash at the intersection of Adams and Long streets at about eight o'clock yesterday morning brought citizens out into the street to see what had hapuened. Joe Sbaffi in a Lava Cap pickup was enroute to the mine. Joe Moscatelli coming out Long street enroute to work thought Sbaffi would turn out. Both became confused and turned into each other damaging both machines considerably. Neither man received injuries.

COURT CALENDAR

The following matters will be heard in the superior court this morning by Judge Raglan Tuttle:

Estate of Lou A. Putnam, William Korff, deceased. Final accounts and petitions for distribution.

Walmsley vs. French and Muller vs. Mountaineer mines. Demurrers.

Estate of Annie Ruck. Petition for letters of administration.

Estate of Deborah Gillman. Deceased. Petition for letters of administration with will annexed.

Estate of Chris Christensen, deceased. Petition for probate of will.

Estates of Hyman and Tilly. Petition to establish death.

Tobiassen vs. P. G. & E. Motion to tax costs.

Stinson vs. Mooers, Demurrer.

Estates of Bert M. Hamilton and Mary Ann Hamilton, deceased. Petitions for order permitting stipulation.

Benson vs. Landis and Green vs. Landis setting cases for trial.

Estate M. S. White deceased report of inheritance tax appraiser.

Stockdale vs. Varenkemp, motion to dismiss.

People vs. Kendrick, passing judgment.

NEW CHAMBER MEMBERS

It was announced by Fred E. Conner president of the Nevada City Chamber of Commerce yesterday that Mrs. May Carr of the Lace House and William Home, men's wear, have joined the chamber of commerce.

DOWNEY WOULD

(Continued from Page One)

States and not Russia and wonder if we need or want a United States Senator who with apparent approval suggests revolution as one cure for America's ills.

"I do not believe in Sheridan Downey's $30 a Week Ham and Eggs plan. I do not believe that at our present national crisis the senate needs enther a visionary or a rainbow chaser, I do not believe that America should go forward through revolution."

Former Governor Young cited another section of Downey's book in which Downey attacked American wage earners' efforts to accumulate savings.

Reading from the Downey book, Young quoted:

"By this I shall not mean the excess income of the rich or the prosperous, but the accumulations of the great majority of our people as a means of providing against old age and sickness, and for education, travel and other reasonable needs. There is no doubt that such 'savings' constituted a condition that assisted in precipitating the present panic, and it is clearly apparent that these 'savings' now tend to retard recovery."

Young declared:

"I see the faults of America, and I believe those faults can be cured; but I am not ready to seek a remedy by the Sheridan Downey method, either by a revolution or by agreeing that the savings of the provident home-owner, the small merchant, the modest farmer, or the wage-earner are an evil.

"I am for Philip Bancroft because of the man himself—because he is exceptionally able, intelligent, honest, frank and courageous—and because of the danger to the country through a possible election of his opponent."

Young contrasted the careers of the two men Bancroft, San Francisco born attorney who has been a farmer in Walnut Creek for 20 years, Young first knew in the days of the Lincoln-Roosevelt League when "it took hardy spirits to buck the machine," Young said. The Lincoln-Roosevelt League broke political control of California by corporations and succeeded in electing Hiram Johnson governor. Bancroft has since distinguished himself in other progressive movements.

"Downey, on the other hand, has been a chaser of rainbows as far as economic panaceas are concerned," Young staated. "Four years ago he was in the forefront of the Epic movement, which we remember was in some mysterious way, designed to end poverty in California. Next he embraced the Townsend Plan. While advocating the plan, he bitterly assailed President Roosevelt's social security program, declared that the Social Security Act was a tragic failure and should be repealed."

Referring to Downey's present espousal of the $30 Every Thursday plan, Young said:

"Finally we see him leading advocates of a hair-brained scheme which is a cruel delusion, giving false hopes and certain disaster to those in need, and benefitting only its shrewd promoters."

Young delivered his statement over a statewide radio hookup. He concluded:

"I believe Bancroft would make a strong and vigorous Senator for California. I feel that he has given a stimulus to the present campaign such as we have not experienced in many a day. "A farmer has aroused the good citizens of California."

E. N. PHILLIPS SEVERELY BITTEN BY DOG

Chief of Police Garfield Robson was called to find and kill a dog that severely bit E. N. Phillips of Bridge street yesterday. The officer found a stray dog that had been fed by one of the assistants at Schreiber's Restaurant for some time and Phillips identified it. Dr. C. Quinan treated the severe bites on Phillips leg and recommended killing the dog and sending its head to the hygiene laboratory at University of California to be analyzed for rabies. This was done.

Chief of Police Robson warns all persons who value their dogs to buy licenses for their pets if they are permitted to run about. All strays found running about will be picked up and disposed of.

UNION MINE

Four men have taken a lease on Cap. George A. Nihells Union mine in the Canada Hill section and doing surface work in preparation for active mining. They are waiting for electricity to be brought to the property. Poles are being cut for mining, an ore bin is being built.

FOREST SERVICE AID STATE WEATHER BUR.

The Forest Service will again cooperate with the Weather Bureau at Sacramento in collecting data for flood warnings, according to DeWitt Nelson, Tahoe Forest supervisor at Nevada City. Any precipitation of one inch or over within a period of 24 hours is reported to the weather bureau and reports continued until the storm in question has ended or the precipitation falls below one half inch a day. By collecting this data from the various watersheds, the weather bureau can forecast probable flood conditions in the lower valleys, and E. F. Fletcher, meteorologist in charge of the bureau at Sacramento states that the information was very valuable during the past winter. District rangers at Downieville, Camptonville, Foresthill and North Bloomfield will report to Nelson's office, and the information for Nevada City will be furnished by Mrs. Jennie Preston, cooperative weather observer These reports will be compiled and telegraphed to the weather bureau. Meteorologist Fletcher has just completed a tour of the stations in preparation for inaugurating the service again this season.

RESTRICTIONS AGAINST SMOKING WAIVED

The recent rains have made it possible to remove a number of restrictions placed in effect at the beginning of the season, according to DeWitt Nelson, Tahoe forest supervisor at Nevada City. Until further notice, Nelson says, the restrictions against smoking and the camp fire permit and shovel and axe requirements are waived.

P. T. A. OPENS CAMPAIGN FOR NEW MEMBERS

The Elementary P. T. A. started their membership drive last Monday. Principal Cecil Klee has had thermometers made and each grade will use them to register number of members secured for the different classes. The class leading in membership drive will be given a grand time on Hallowe'en. Reports on the drive will be made at the next meeting of the P. T. A. on November 4.

Rev. H. H. Buckner of the local Methodist church, was elected vice president of the Nevada-Placer Ministerial association. Rev. Samuel Tamblyn of Roseville was chosen president. The first meeting of the group of new officers will be held in Nevada City, November 7.

SANTA CLARA AND DETROIT TO CLASH IN SACTO.

Football fans in Nevada City who are planning to attend the Santa Clara Detroit gridiron clash in the Sacramento Stadium on November 27 will be rewarded with an afternoon of fast and furious football

Buck Shaw's "Broncos" of Santa Clara are again becoming famous for their touchdown marches, and although Coach "Gus" Dorais of the Detroit "Titans" misses the long runs of Andy Frakas, who was lost though graduation last year, he is whipping his team into fighting form for the remaining games of a hard schedule and promises to be in Sacramento next month with a definite danger threat to Santa Clara University.

Buck Shaw does not promise to bring an undefeated team to Sacramento on November 27, when his team meets the Detriot "Titans" but Shaw hasn't been in the habit of predicting "all-victory" seasons, and look what has been happening to Santa Clara opponents for the past two years.

On the other hand, Coach Dorais of the Detriot Titans is also a modest fellow. Records show that one of the most remarkable defensive records held by any college in the country is that of the University of Detroit under Coach Dorais. He came to University of Detroit at the beginning of the 1925 season. Up to the start of this season his teams had played 122 games of which they had won 83, lost 33 and tied six.

Members of the Sacramento Elks Lodge, sponsors of the Bronco-Titan game in Sacramento on November 27, report on early demand for reservations including a number from Nevada City football fans. Tickets may be obtained by writing the Elks Football Committee in Sacramento.

ONE HUNDRED ENROLLED IN N. C. NIGHT SCHOOL

One hundred are registered in the Nevada City night school conducted in the Nevada City high school on Tuesday night. Any one interested in registering in one or more of the courses given please phone 120 or report to the school next Tuesday night.

Instruction is given as follows: typewriting, Tuesdays and Thursdays from 7 to 8; shorthand meets Tuesday and Thursday from 8 to 9; Spanish meets from —to 8 on Tuesdays and Thursdays; men's physical education classes meet on Tuesdays 8 to 9 and women's P. E. classes Thursday from 8 to 9; freehand drawing will meet on Tuesdays from 7 to 9; orchestra will also meet on Thursdays from 7 to 9; and unless it is changed to a night schedule arts and crafts will meet Wednesdays from 4 to 6.

The registration fee is $1.00. Mrs. P. E. Marshall is instructor in Spanish; Mr. Clifford Warner is painting and free hand drawing, Mrs. Nell George in arts and crafts; Miss Nell Bagley in shorthand and typing; Miss Thelma Peterson in women's physical education and Frank P. Martin, mens physical education. Mr. Ralh Smith will teach the orchestra.

Mrs. Esther Tremaine Joyal, associate matron of Evangeline Chapter, O. E. S., is attending grand chapter in Oakland this week. She was accompanied by her mother, Mrs. Richard Tremaine.

LAVA CAP MINE

Seven men have been added to the Lava Cap staff making a $43,000 payroll. Superintendent Otto Schiffner stated everything running the same as last month.

SUICIDE OF UNEMPLOYED MINER

The body of Nick Hazen, 49, a Grass Valley miner, who has been unemployed in recent months was found in his car at 3:25 Wednesday by E. L. Macchiavelli,. Hazen had run a rubber hose from the exhaust into the body of his car. He left three notes indicating despondency over ill health.
